

# Capability Statement

**SAPERRE's proactive security solutions** are customized for each organization, taking into account unique characteristics, needs, threats, and organizational constraints. The aim is to safeguard human life, operations, vital assets, and business continuity. With decades of hands-on experience, SAPERRE provides security plans that stop threats through detection, deterrence, and prevention surveillance by combining skilled human factor and advanced technologies.

## Company Profile

**SAPERRE** is an American-Israeli partnership (formed in 2019) providing essential turnkey solutions in the fields of Integrated Security with experience developed over 40 years. The company specializes in developing and implementing proactive security solutions for governmental, public administration, business, and civilian sectors:

- Organizations, Institutions, and Companies
- Aviation – Airports and Air Carriers
- Critical, Urban, and Industrial Facilities
- Energy and Oil Industry Infrastructure
- Healthcare and Medical Centers
- Maritime – Harbors and Vessels
- Public Transportation
- Mass-Events and Crowd Management
- Prisons and Detention Centers
- Executives and Delegations

**SAPERRE's** core activity includes the three components of risk analysis: assessment, management, and communication. The primary focus is to maintain business continuity and safeguard vital assets and human life, whether from deliberate attacks initiated by hostile elements, natural causes or human failure. This includes proactively and unobtrusively preparing for the following diverse threats:

- Terror Threats and Attacks
- Active Shooters
- Delinquency, Vandalism, and Property Crime
- Public Order
- Loss Prevention
- Embezzlement, Fraud, and Misappropriation (Employee Reliability)
- Data and Cyber Security
- Emergency Preparedness

## SAPERRE Security Plan Components

## Security Training

Trained personnel is the foundation upon which the security system is based. Security managers, officers, and agents ultimately determine the level of preparedness to respond proactively to threats. **SAPERE** regards security training, employee awareness programs, and continuing education as integral to every security management plan.

In partnership with the Homeland Security Academy at Wingate College in Netanya, Israel, ([www.hls-academy.com](http://www.hls-academy.com)), training is provided for all positions in the field of security: managers, officers, and field personnel to fulfill their roles under routine and emergency conditions with an emphasis on behavior pattern recognition.

## Crisis Management and Emergency Preparedness

**SAPERE** specializes in crisis management, offering consulting services, project management, and training in the area of crisis prevention, emergency preparedness and coping with disasters before, during, and after the event.

This includes risk analysis and preparations, management and coordination when a crisis occurs, recovery and return to work after event concludes. Focus is on five levels: prevention, preparation, survival, recovery, and return to routine operations.

## Our Mission and Values

**SAPERE** deploys holistic, unobtrusive security strategies to protect against terrorism, crime, and violence. We are committed to the [ethical code of security](#) formulated by the Homeland Security Academy at Wingate College. We place the protection of our client's operations, human life, and critical assets at the top of our priorities where the smallest details count.
